Dance Mogul: What can fans expect from this upcoming season of Team Kaylie?

Eliza Pryor: I really believe the episodes get funnier and funnier. Some of my favorite episodes are being released. In Part 3, fans will get to learn more about each of the character's background and of course have big laughs along the way!

Dance Mogul: How do you

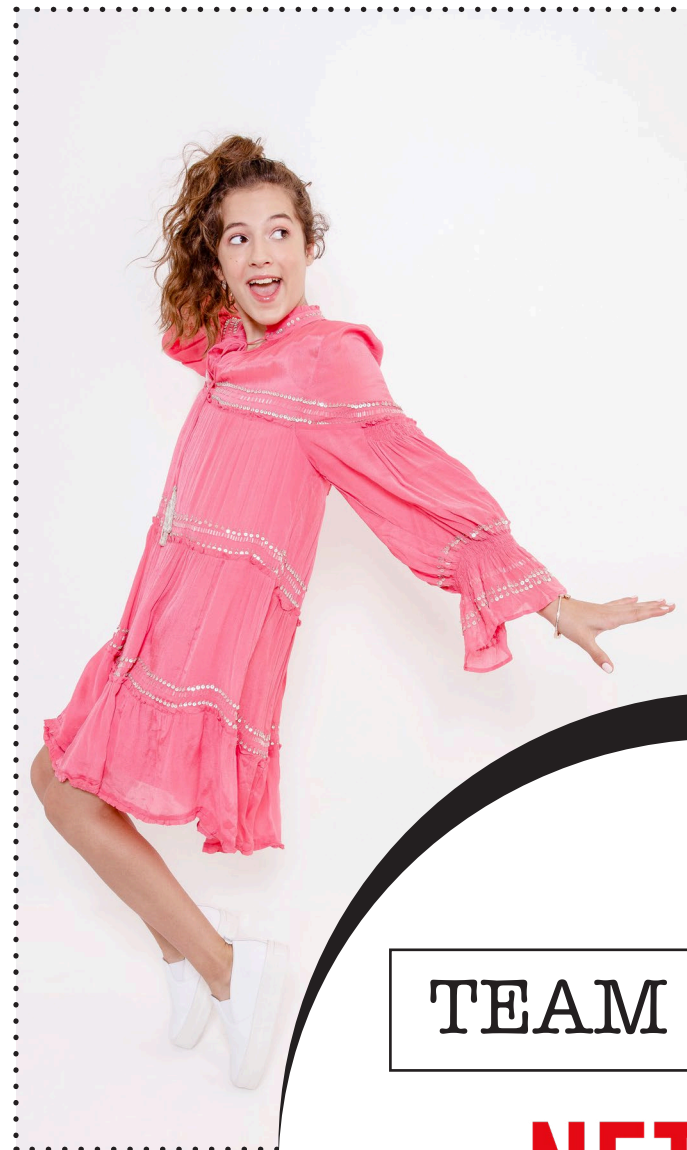

balance your singing and acting career at such a young age? How did you get involved with Acapop?

Eliza Pryor: I love both singing and acting and continue to train in both. The work schedule can sometimes be tough to manage but it's really juggling it all with school, which is also really important to me. I found out about Acapop! KIDS when flyers were sent out saying that they were making a kids a cappella group.

I did a few auditions and soon became a part of the group.

Dance Mogul: What was it like working on Raven's home? Did she have any advice for you being a young actress?

Eliza Pryor: I learned so much working with Raven and all the other talented actors on the show. Raven is an amazing actress and is so funny! She is a great role model.

Dance Mogul: What was it like working on a cult classic video game like resident evil?

Eliza Pryor: It was such a cool experience! It was really fun getting to wear a motion capture suit each day. The game has such loyal fans and it was an honor to bring Sherry Birkin to life.

Dance Mogul: What else can we expect from you in 2020?

Eliza Pryor: You never know in this industry but I definitely plan to keep working and training hard! I would say keep a lookout for Acapop! KIDS because we have a lot of new content coming!

Dance Mogul: What advice do you have for other young actresses?

Eliza Pryor: Stay positive and believe in yourself. I have already learned at a young age that this business can be tough and you will hear the word "no" a lot before you hear a "yes". Always be confident and do your best because good things will happen!
